- Customized hook arrangement
- Sturdy, all-welded base
- State-of-the-Art Powder Coat Finish
- Lifetime Limited Warranty on all metal locker components

FLEX ELITE

Unique Form for Durability & Usability

The FLEX ELITE locker is designed to bring a more modern look to any locker room at a more affordable price point than other high-end locker rooms. With many options and features, the FLEX ELITE is an alternate to laminate lockers that don't hold up to real athletes.

The ICON back frame forms the structure of the locker at full height leaving the unit rigid and sturdy. The slanted RAZOR cutback front frame allows plenty of space for athletes and gear alike. Stick with the classic footlocker or go with a simple cubby or a smooth-sliding drawer at the bottom to store all your stuff safely.

With branding and aesthetic options as well as practical power and gear storage options, the FLEX ELITE is a teammate you can rely on.

Upper Options

- Stainless steel or powder-coated steel security compartment with locking (branding available)
- Half-size or full-size top cubby
- Football shoulder pad and helmet
- Football shoulder pad and helmet rack

DeBourgh Means Different

Special Designs & Features

The FLEX ELITE locker is designed to bring a more modern look to any locker room at a more affordable price point than other high-end locker rooms. With many options and features, the FLEX ELITE is an alternate to laminate lockers that don't hold up to real athletes.

The ICON back frame forms the structure of the locker at full height leaving the unit rigid and sturdy. The slanted RAZOR cutback front frame allows plenty of space for athletes and gear alike. Stick with the classic footlocker or go with a simple cubby or a smooth-sliding drawer at the bottom to store all your stuff safely.

With branding and aesthetic options as well as practical power and gear storage options, the FLEX ELITE is a teammate you can rely on.

The FLEX ELITE locker features a unique structural channel design which keeps the bodies rigid and ensures the lockers are around for a lifetime

The slanted sides give plenty of room for athletes of all sizes. The less boxed-in look of classic open-front lockers feels more like a pro sport locker room that you can actually afford
